Together, we'll co-design your personal learning journey to make sure that it fits your needs and gets you to where you want to be.

We have smart assistive technologies available to help you to clearly communicate your choices and preferences. We can also support you in learning how to use technology, including our ground-breaking Virtual Learning Environment, to help you reach your goals.

Our site is fitted with a large, fully equipped kitchen, outdoor area, recreational spaces and quiet areas.
