Is this the right home for you?

Current tenants would love to have a new housemate with whom they can socialise and do planned activities, such as arts and crafts or outings into the community. They are currently living in a temporary rental while their new home will be completed in 2023.

The home

The newly built home is situated in White Rock, one of Queensland's most tropical locations. This is a highly sought-after property.

There are four resident bedrooms, each with built-in wardrobes and existing window coverings, as well as an additional bedroom for shared support.

There are two bathrooms (each shared between two residents) and air-conditioning within the open-plan living spaces.

The residents are currently living in a temporary rental that has a large backyard with a BBQ patio and open-plan living space. This is an opportunity to get to know your new housemates before making the move into your brand-new home in 2023.
