Our Strategic Plan

We want to tell you about our new **strategic plan**.

Our Strategic Plan

A **strategic plan** is a document with information about:

- a goal
- how a goal is going to be achieved

Our **strategic plan** guides us in our purpose to make possibilities a reality for people we support.

We are excited about our new **strategic plan**.

Our Strategic Plan

The goal of our **strategic plan** is to have a **positive impact** in the lives of people we support.

A **positive impact** means a good effect.

We want to achieve this goal because the people we support are at the heart of everything we do.

5

Our plan focuses on five outcomes that are important to people we support, their families and carers.

People we support must be safe and feel safe.

More people we support feel physically and mentally healthy.

More people we support feel they have greater choice in how they live their lives.

More people we support feel involved in their lives and in their community.

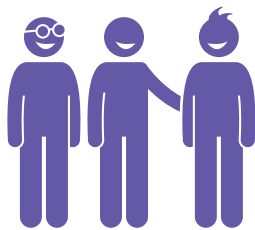

More people we support have a paid job that's right for them.

We will know we are making a difference when we see positive improvements in our outcomes.

We will also ask you how you feel so we can see if we are making a **positive impact**.

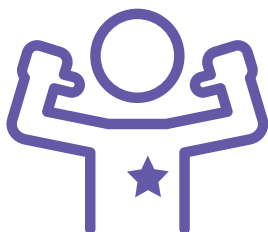

We'll know we've succeeded when you feel:

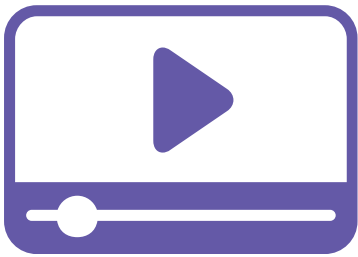

- included
- empowered
- lead a full and purposeful life

- can exercise choice and control
